

## Rabbit anti-Human, Rat Beclin 1 Polyclonal Antibody | anti-BECN1 antibody

Rabbit Anti-Human Beclin 1 Polyclonal

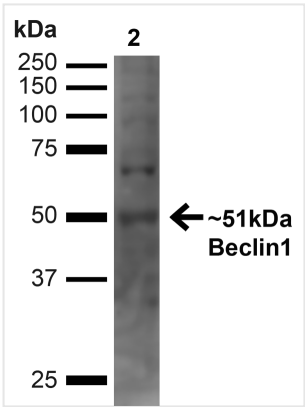

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS |
|-----------|--------|------------|--------------|
| AAA103816 | Rabbit | Human, Rat | Western Blot |

### PRODUCT SYNONYMS

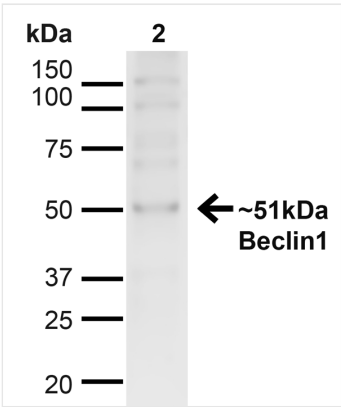

Beclin 1; Polyclonal Antibody; Rabbit Anti-Human Beclin 1 Polyclonal; APG6 Antibody; BCL-2 interacting protein beclin Antibody; Beclin 1 autophagy related Antibody; BECN1 Antibody; BECN1\_HUMAN Antibody; GT197 Antibody; VPS30 Antibody; Beclin 1 Antibody : ATTO 594; Beclin 1 Antibody; anti-BECN1 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                                                                |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                                                                                         |
| Reactivity                                      | Human, Rat                                                                                                                                                                     |
| Clonality                                       | Polyclonal                                                                                                                                                                     |
| Purity/Purification                             | Peptide Affinity Purified                                                                                                                                                      |
| Concentration                                   | 1 mg/ml (varies by lot)                                                                                                                                                        |
| Sequence Length                                 | 450                                                                                                                                                                            |
| Applicable Applications for anti-BECN1 antibody | WB (Western Blot)                                                                                                                                                              |
| Immunogen                                       | Synthetic peptide from the C-terminus of human Beclin 1                                                                                                                        |
| Immunogen Species                               | Human                                                                                                                                                                          |
| COA                                             | A 1:1000 dilution was sufficient for detection of Beclin1 on 293T lysates using Goat anti-rabbit IgG:HRP as the secondary antibody.                                            |
| Storage Buffer                                  | PBS, 50% glycerol, 0.09% sodium azide                                                                                                                                          |
| Conjugate                                       | ATTO 594                                                                                                                                                                       |
| Cellular Localization                           | Cytoplasm, Golgi apparatus, Trans-Golgi network membrane  Endosomes, Endoplasmic reticulum membrane, Mitochondrion, Mitochondrion membrane, Cytoplasmic vesicle, Autophagosome |
| Preparation and Storage                         | Store at -20 degree C                                                                                                                                                          |

**WB (Western Blot)**  
Western blot analysis of Human Embryonic kidney epithelial cell line (HEK293T) lysate showing detection of ~51kDa Beclin 1 protein using Rabbit Anti-Beclin 1 Polyclonal Antibody (SPC-601). Lane 1: MW Ladder. Lane 2: Human 293T (20 ug). Load: 20 ug. Block: 5% milk + TBST for 1 hour at RT. Primary Antibody: Rabbit Anti-Beclin 1 Polyclonal Antibody (SPC-601) at 1:1000 for 1 hour at RT. Secondary Antibody: Goat Anti-Rabbit: HRP at 1:2000 for 1 hour at RT. Color Development: TMB solution for 12 min at RT. Predicted/Observed Size: ~51kDa.

**WB (Western Blot)**  
Western blot analysis of Human Cervical cancer cell line (HeLa) lysate showing detection of ~51kDa Beclin 1 protein using Rabbit Anti-Beclin 1 Polyclonal Antibody (SPC-601). Lane 1: MW Ladder. Lane 2: Human HeLa (20 ug). Load: 20 ug. Block: 5% milk + TBST for 1 hour at RT. Primary Antibody: Rabbit Anti-Beclin 1 Polyclonal Antibody (SPC-601) at 1:1000 for 1 hour at RT. Secondary Antibody: Goat Anti-Rabbit: HRP at 1:2000 for 1 hour at RT. Color Development: TMB solution for 12 min at RT. Predicted/Observed Size: ~51kDa.

ADDITIONAL INFORMATION

|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Related Product Information for anti-BECN1 antibody | Beclin 1 is the mammalian ortholog of the yeast autophagy -related gene Atg6. It regulates autophagy and has an important role in development, tumorigenesis and neurodegeneration (1). Beclin 1 is localized within cytoplasmic structures including the mitochondria, yet overexpression reveals some nuclear staining (2). Researchers have found that schizizophrenia is associated with low levels of Beclin-1 in the hippocampus (3). It may also protect against infection by a neurovirulent strain of Sindbis virus (4). |
| Product Categories/Family for anti-BECN1 antibody   | Cancer; Cell Signaling; Epigenetics; Autophagy                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
