

Mouse SORL1 Monoclonal Antibody | anti-SORL1 antibody

SORL1 antibody

CATALOG # AAA106485	HOST Mouse	APPLICATIONS Western Blot, ELISA
-------------------------------	----------------------	--

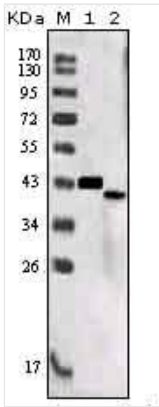

PRODUCT SYNONYMS

SORL1; Monoclonal Antibody; SORL1 antibody; Monoclonal SORL1; Anti-SORL1; SORL 1; SORL-1; Sortilin related receptor L A repeats containing; anti-SORL1 antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Clone Number	7D7B11
Form/Format	Ascitic fluid with 0.03% NaN ₃
Concentration	100ul, Ascites (varies by lot)
Applicable Applications for anti-SORL1 antibody	WB (Western Blot), ELISA
Biological Significance	SORL1 is a Type I membrane protein that may be involved in cell-cell interaction. SorLA, a single transmembrane receptor, binds LDL and transports it into cells by endocytosis. SorLA is synthesized as a proreceptor which is processed to the mature form by a furin-like propeptidase. It can also bind to RAP (receptor-associated protein). SorLA is a multifunctional endocytis receptor important in lipoprotein and protease uptake. The N-terminal propeptide, which is removed, can be cleaved by furin or homologous proteases. Endogenous SorLA binds the neuropeptide head activator (HA) and is important for HA signaling and function.
Cross-Reactivity	Human
Immunogen	SORL1 antibody was raised in Mouse using a purified recombinant fragment of SORL1(aa2159-2214) expressed in E Coli as the immunogen.
Preparation and Storage	Store at 4 degree C for short term storage. Store at -20 degree C for long term storage. Avoid repeated freeze/thaw cycles.
