

## anti-Human, Mouse TFIP8 Antibody | anti-TFIP8 antibody

TFIP8 Antibody

|                               |                                   |                                                                                      |
|-------------------------------|-----------------------------------|--------------------------------------------------------------------------------------|
| CATALOG #<br><b>AAA109023</b> | REACTIVITY<br><b>Human, Mouse</b> | APPLICATIONS<br><b>ELISA, Immunofluorescence, Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------------------|--------------------------------------------------------------------------------------|

### PRODUCT SYNONYMS

TFIP8; TFIP8 Antibody; Tumor necrosis factor; alpha-induced protein 8; Head and neck tumor and metastasis-related protein; TNF-induced protein GG2-1; SCC-S2; NF-kappa-B-inducible DED-containing protein; NDED; MDC-3.13; TNFAIP8; anti-TFIP8 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                |
|-------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Reactivity                                      | Human, Mouse                                                                                                   |
| Specificity                                     | TFIP8 antibody detects endogenous levels of total TFIP8 protein.                                               |
| Purity/Purification                             | Affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.           |
| Form/Format                                     | In phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Sequence Length                                 | 188                                                                                                            |
| Applicable Applications for anti-TFIP8 antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                                  |
| Immunogen                                       | The antiserum was produced against synthesized peptide derived from internal of human TFIP8.                   |
| Preparation and Storage                         | Store at -20 degree C for 1 year.                                                                              |

### IMAGES

Application Data  
Peptide+

#### IHC (Immunohistochemistry)

Immunohistochemistry analysis of paraffin-embedded human lung carcinoma tissue using TFIP8 antibody. Western blot analysis of extracts from HUVEC cells, using TFIP8 antibody.

### ADDITIONAL INFORMATION

|                                                   |                                                                                                                                                                                                                   |
