

Rabbit Rabies virus Phosphoprotein Polyclonal Antibody | anti-P antibody

Rabbit anti-Rabies virus Phosphoprotein polyclonal Antibody, Biotin conjugated

CATALOG # AAA118143	HOST Rabbit	REACTIVITY Rabies virus	APPLICATIONS ELISA
-------------------------------	-----------------------	-----------------------------------	------------------------------

PRODUCT SYNONYMS

Rabies virus Phosphoprotein; Polyclonal Antibody; Rabbit anti-Rabies virus Phosphoprotein polyclonal Antibody; Biotin conjugated; Protein M1 P; anti-P antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Rabies virus
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	Caprylic Acid Ammonium Sulfate Precipitation Purified
Sequence Length	297
Applicable Applications for anti-P antibody	ELISA
Storage Buffer	Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, PH 7.4
Conjugate	Biotin
Immunogen	Recombinant Rabies virus Phosphoprotein protein
Preparation and Storage	Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C or -80 degree C. Avoid repeated freeze.

ADDITIONAL INFORMATION

Related Product Information for anti-P antibody	Non catalytic polymerase cofactor and regulatory protein that plays a role in viral transcription and replication. Stabilizes the RNA polymerase L to the N-RNA template and binds the soluble protein N, preventing it from encapsidating non-genomic RNA. Also inhibits host IFN-alpha and IFN-beta signaling by binding and retaining phosphorylated STAT1 in the cytoplasm or by inhibiting the DNA binding of STAT1 in the nucleus. Might be involved, through interaction with host dynein, in intracellular microtubule-dependent virus transport of incoming virus from the synapse toward the cell body
---	--

NCBI AND UNIPROT INFORMATION

NCBI GI #	61237514
UniProt Accession #	P69480; P22559
Molecular Weight	24,110 Da
NCBI Official Full Name	Phosphoprotein
UniProt Protein Name	Phosphoprotein
UniProt Gene Name	P
UniProt Synonym Gene Names	Protein P

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
