

Rabbit Elastin (ELN) ELISA Kit | ELN elisa kit

Rabbit Elastin (ELN) ELISA Kit

CATALOG #
AAA121733

REACTIVITY
Rabbit

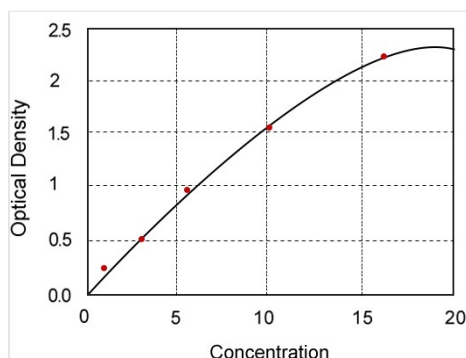

PRODUCT SYNONYMS

Elastin (ELN); Rabbit Elastin (ELN) ELISA Kit; ELN elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rabbit
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	5ng/ml - 300ng/ml
Sensitivity	2.28ng/ml
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for ELN elisa kit

Intended Uses: This sandwich kit is for the accurate quantitative detection of Rabbit Elastin (also known as ELN) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Rabbit ELN antibody. ELN present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Rabbit ELN Antibody is added and binds to ELN in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated ELN antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Rabbit ELN. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
