

Canine Methemoglobin (MHB) ELISA Kit | MHB elisa kit

Canine Methemoglobin (MHB) ELISA Kit

CATALOG #
AAA122353

REACTIVITY
Canine

PRODUCT SYNONYMS

Methemoglobin (MHB); Canine Methemoglobin (MHB) ELISA Kit; MHB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Canine
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	3mg/ml - 900mg/ml
Sensitivity	1.43mg/ml
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for MHB elisa kit

Intended Uses: This sandwich kit is for the accurate quantitative detection of Canine Methemoglobin (also known as MHB) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Canine MHB antibody. MHB present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Canine MHB Antibody is added and binds to MHB in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated MHB antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Canine MHB. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
