PRODUCT SYNONYMS

IL-11 receptor alpha; Mouse IL-11 receptor alpha Recombinant; IL-11RA; IL11ra; IL11RA active protein

PRODUCT SPECIFICATIONS

Host	HEK Cells (Host protein expression may be lot-specific and can be subject to change during production, including bulk orders)
Purity/Purification	>85%, as determined by SDS-PAGE and HPLC
Form/Format	Recombinant mouse Interleukin-11 alpha was lyophilized from a 0.2um filtered PBS solution pH 7.4.
Sequence Length	432
Source	Mouse
Source Note	DNA sequence encoding extracellular domain of Mouse IL-11RA fused to a C-terminal polyHis tag was expressed in HEK cells.
Biological Activity	The activity was determined by its ability to bind mouse IL-6ST in functional ELISA.
Endotoxin	Endotoxin content was assayed using a LAL gel clot method. Endotoxin level was found to be less than 0.1 ng/ug (1EU/ug).
Reconstitution	A quick spin of the vial followed by reconstitution in distilled water to a concentration not less than 0.1 mg/mL. This solution can then be diluted into other buffers.
Preparation and Storage	The lyophilized protein is stable for at least 2 years from date of receipt at -20 degree C. Upon reconstitution, this cytokine can be stored in working aliquots at 2 degree - 8 degree C for one month, or at -20 degree C for six months, with a carrier protein without detectable loss of activity. Avoid repeated freeze/thaw cycles.
