

Rabbit anti-General Estradiol (E2) Polyclonal Antibody | anti-E2 antibody

HRP-Linked Polyclonal Antibody to Estradiol (E2)

CATALOG # AAA146082	HOST Rabbit	REACTIVITY General	APPLICATIONS Immunocytochemistry, Immunohistochemistry
-------------------------------	-----------------------	------------------------------	--

PRODUCT SYNONYMS

Estradiol (E2); Polyclonal Antibody; HRP-Linked Polyclonal Antibody to Estradiol (E2); 17B-Estradiol; Oestradiol; Beta-Estradiol; anti-E2 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	General
Clonality	Polyclonal
Purity/Purification	Antigen-specific Affinity Chromatography.!!Label HRP!!Traits Liquid
Form/Format	Supplied as solution form in 0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.
Concentration	500ug/ml (varies by lot)
Applicable Applications for anti-E2 antibody	ICC (Immunocytochemistry), IHC (Immunohistochemistry)
Source	Antibody labeling
Cross Reactivity	General
Unconjugated Antibody	The unconjugated antibody version of this item is also available as
Preparation and Storage	Storage: Avoid repeated freeze/thaw cycles. Store at 4°C for frequent use. Aliquot and store at -20°C for 12 months. Stability Test: The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition. Note: As fluorescence can photobleach when exposed to light, so the antibody must be protected from light.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
