

Rat Gastrin (GT) ELISA Kit | GT elisa kit

Rat Gastrin (GT) ELISA Kit

CATALOG #
AAA148564

REACTIVITY
Rat

PRODUCT SYNONYMS

Gastrin (GT); Rat Gastrin (GT) ELISA Kit; GAST; GAS; Gastrin component I; Big gastrin; Gastrin component II; Gastrin component III; GT elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Specificity	This assay has high sensitivity and excellent specificity for detection of Gastrin (GT). No significant cross-reactivity or interference between Gastrin (GT) and analogues was observed.
Sequence Length	104
Assay Type	Double-antibody Sandwich
Samples	Serum, Plasma, Tissue homogenates, Cell lysates, Cell culture supernates and other biological fluids
Detection Range	15.6-1,000pg/mL
Sensitivity	6.7pg/mL
Application	Enzyme-linked immunosorbent assay for Antigen Detection.
Intra-assay Precision (Precision within an assay)	3 samples with low, middle and high level Gastrin (GT) were tested 20 times on one plate, respectively.
Inter-assay Precision (Precision between assays)	3 samples with low, middle and high level Gastrin (GT) were tested on 3 different plates, 8 replicates in each plate.
CV(%) =	SD/meanX100
Intra-Assay	CV<10%
Inter-Assay	CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for GT elisa kit	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Gastrin (GT). Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody specific to Gastrin (GT). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Gastrin (GT), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Gastrin (GT) in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for GT elisa kit	Metabolic pathway; Endocrinology; Gastroenterology; Hormone metabolism

NCBI AND UNIPROT INFORMATION

NCBI GI #	6978875
NCBI GeneID	25320
NCBI Accession #	NP_036981.1
NCBI GenBank Nucleotide #	NM_012849.1
UniProt Accession #	P04563
Molecular Weight	11,832 Da
NCBI Official Full Name	gastrin
NCBI Official Synonym Full Names	gastrin
NCBI Official Symbol	Gast
NCBI Official Synonym Symbols	Gas; PPG34
NCBI Protein Information	gastrin
UniProt Protein Name	Gastrin
UniProt Gene Name	Gast
UniProt Synonym Gene Names	Gas; G34

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
