

Rat c-jun ELISA Kit | c-jun elisa kit

Rat c-jun ELISA Kit

CATALOG #
AAA163402

REACTIVITY
Rat

PRODUCT SYNONYMS

c-jun; Rat c-jun ELISA Kit; c-jun elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Specificity	This assay has high sensitivity and excellent specificity for detection of Rat c-jun. No significant cross-reactivity or interference between Rat c-jun and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Rat c-jun and all the analogues, therefore, cross reaction may still exist.
Sequence Length	331
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	1.563-100ng/mL
Sensitivity	Min: 0.938ng/mL; Max: 100ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for c-jun elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of c-jun in Rat serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat c-jun. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Rat c-jun and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat c-jun, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Rat c-jun. You can calculate the concentration of Rat c-jun in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	1911701
NCBI GeneID	396913
UniProt Accession #	P56432
Molecular Weight	35,629 Da
NCBI Official Full Name	c-Jun
NCBI Official Symbol	C-JUN
NCBI Official Synonym Symbols	Jun
NCBI Protein Information	transcription factor AP-1; AP1; V-jun avian sarcoma virus 17 oncogene homolog; activator protein 1; proto-oncogene c-jun
UniProt Protein Name	Transcription factor AP-1
UniProt Gene Name	JUN
UniProt Synonym Gene Names	AP1
UniProt Entry Name	JUN_PIG

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
