

Human OXA ELISA Kit | OXA elisa kit

Human OXA (Orexin A) ELISA Kit

CATALOG #
AAA164217

REACTIVITY
Human

PRODUCT SYNONYMS

OXA; Human OXA (Orexin A) ELISA Kit; OXA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This kit recognizes Human OXA in samples. No significant cross-reactivity or interference between Human OXA and analogues was observed.
Sequence Length	266
Assay Type	Quantitative Competitive
Samples	Serum, plasma and other biological fluids
Detection Range	62.5-4000pg/mL
Sensitivity	37.5pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level Human OXA were tested 20 times on one plate, respectively.
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level Human OXA were tested on 3 different plates, 20 replicates in each plate.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for OXA elisa kit	Principle of the Assay: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Human OXA. During the reaction, Human OXA in the sample or standard competes with a fixed amount of Human OXA on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Human OXA. Excess conjugate and unbound sample or standard are washed from the plate, and Avidin conjugated to Horseradish Peroxidase (HRP) are added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color change is measured spectrophotometrically at a wavelength of 450 nm ± 2 nm. The concentration of Human OXA in the samples is then determined by comparing the OD of the samples to the standard curve. Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Human OXA concentrations in serum, plasma and other biological fluids.

NCBI AND UNIPROT INFORMATION

NCBI GI #	110592095
Molecular Weight	30,965 Da
NCBI Official Full Name	oxcillinase
UniProt Protein Name	Beta-lactamase
UniProt Gene Name	oxa
UniProt Entry Name	Q0PV34_PSEAI

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
