

Mouse NFkB ELISA Kit | NFkappaB elisa kit

Mouse NFkB (Nuclear Factor Kappa B) ELISA Kit

CATALOG #
AAA164261

REACTIVITY
Mouse

PRODUCT SYNONYMS

NFkB; Mouse NFkB (Nuclear Factor Kappa B) ELISA Kit; NFkappaB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This kit recognizes Mouse NF-kappaB p105 in samples. No significant cross-reactivity or interference between Mouse NF-kappaB p105 and analogues was observed.
Sequence Length	1125
Assay Type	Quantitative Sandwich
Samples	Serum, plasma and other biological fluids
Detection Range	0.16-10ng/mL
Sensitivity	0.1ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level Mouse NF-kappaB p105 were tested 20 times on one plate, respectively.
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level Mouse NF-kappaB p105 were tested on 3 different plates, 20 replicates in each plate.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for NFkappaB elisa kit	Principle of the Assay: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse NF-kappaB p105. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse NF-kappaB p105 and Avidin- Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse NF-kappaB p105, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm ± 2 nm. The OD value is proportional to the concentration of Mouse NF-kappaB p105. You can calculate the concentration of Mouse NF-kappaB p105 in the samples by comparing the OD of the samples to the standard curve. Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Mouse NF-kappaB p105 concentrations in serum, plasma and other biological fluids.

NCBI AND UNIPROT INFORMATION

NCBI GI #	47551269
NCBI GeneID	373533
NCBI Accession #	NP_999819.1
NCBI GenBank Nucleotide #	NM_214654.1
NCBI Official Full Name	NFkB protein
NCBI Official Symbol	NFkB
NCBI Protein Information	NFkB protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
