

Human Tn-T ELISA Kit | Tn-T elisa kit

Human Tn-T (Troponin T) ELISA Kit

CATALOG #
AAA164299

REACTIVITY
Human

PRODUCT SYNONYMS

Tn-T; Human Tn-T (Troponin T) ELISA Kit; Tn-T elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Human Tn-T. No significant cross-reactivity or interference between Human Tn-T and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Human Tn-T and all the analogues, therefore, cross reaction may still exist.
Sequence Length	164
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	15.625-1000pg/mL
Sensitivity	Min: 9.375pg/mL; Max: 1000pg/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for Tn-T elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of Tn-T in human serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human Tn-T. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Human Tn-T and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human Tn-T, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Human Tn-T. You can calculate the concentration of Human Tn-T in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	472824675
Molecular Weight	19,199 Da
NCBI Official Full Name	troponin-T, partial
UniProt Protein Name	Troponin-T
UniProt Gene Name	tn-T
UniProt Entry Name	M5AKK3_PINFU

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
