

Rat CASR ELISA Kit | CASR elisa kit

Rat CASR (Calcium Sensing Receptor) ELISA Kit

CATALOG #
AAA164567

REACTIVITY
Rat

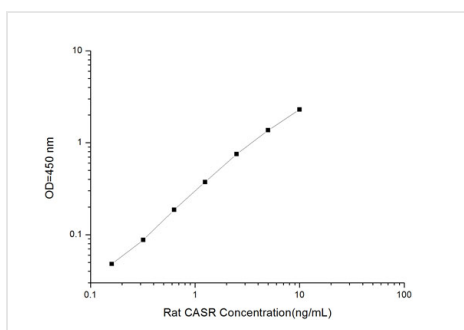

PRODUCT SYNONYMS

CASR; Rat CASR (Calcium Sensing Receptor) ELISA Kit; CASR elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Specificity	This assay has high sensitivity and excellent specificity for detection of Rat CASR. No significant cross-reactivity or interference between Rat CASR and analogues was observed. Note: Limited by current skills and knowledge, it is impossible for us to complete the cross- reactivity detection between Rat CASR and all the analogues, therefore, cross reaction may still exist.
Sequence Length	214
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	0.156-10ng/mL
Sensitivity	Min: 0.094ng/mL; Max: 10ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for CASR elisa kit	Description: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of CASR in Rat serum, plasma and other biological fluids Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat CASR. Standards or samples are added to the appropriate micro ELISA plate wells and bound by the specific antibody. Then a biotinylated detection antibody specific for Rat CASR and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat CASR, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Rat CASR. You can calculate the concentration of Rat CASR in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	10644700
Molecular Weight	23,823 Da
NCBI Official Full Name	CasR
UniProt Protein Name	CasR
UniProt Gene Name	casR
UniProt Entry Name	Q9F6W0_RHIET

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
