

Human PYGM ELISA Kit | PYGM elisa kit

Human PYGM (Glycogen Phosphorylase, Muscle) ELISA Kit

CATALOG #
AAA164801

REACTIVITY
Human

PRODUCT SYNONYMS

PYGM; Human PYGM (Glycogen Phosphorylase; Muscle) ELISA Kit; PYGM elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This kit recognizes natural and recombinant Human PYGM. No significant cross-reactivity or interference between Human PYGM and analogues was observed.
Sequence Length	842
Samples	Serum, Plasma, Biological Fluids
Assay Type	Sandwich
Detection Range	0.313-20ng/mL
Sensitivity	Min: 0.188ng/mL; Max: 20ng/mL
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for PYGM elisa kit	Intended Uses: This ELISA kit applies to the invitro quantitative determination of HumanPYGMconcentrations in serum, plasma and other biological fluids. Principle of the Assay: This ELISA kit uses Sandwich-ELISA as the method. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to PYGM. Standards or samples are added to the appropriate micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for PYGMand Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain PYGM, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of PYGM.You can calculate the concentration of PYGM in the samples by comparing the OD of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	201066417
Molecular Weight	97,195 Da
NCBI Official Full Name	phosphorylase, glycogen (predicted)
UniProt Protein Name	Alpha-1,4 glucan phosphorylase
UniProt Gene Name	PYGM
UniProt Entry Name	B5SNK7_OTOGA

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
