

## Rat BCL-2 ELISA Kit | BCL-2 elisa kit

Rat BCL-2 (B-Cell Leukemia/Lymphoma 2) ELISA Kit

CATALOG #  
**AAA165707**

REACTIVITY  
**Rat**

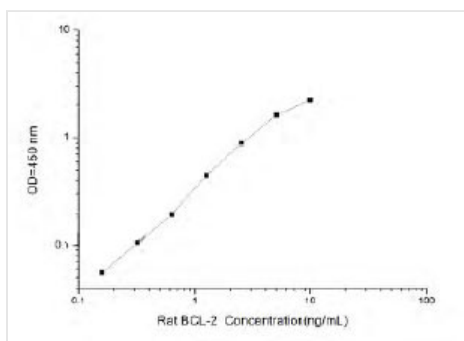

### PRODUCT SYNONYMS

BCL-2; Rat BCL-2 (B-Cell Leukemia/Lymphoma 2) ELISA Kit; BCL-2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                          |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                      |
| Specificity             | This kit recognizes Rat Bcl-2 in samples. No significant cross-reactivity or interference between Rat Bcl-2 and analogues was observed.                                  |
| Sequence Length         | 154                                                                                                                                                                      |
| Samples                 | Serum, plasma and other biological fluids                                                                                                                                |
| Assay Type              | Quantitative Sandwich                                                                                                                                                    |
| Detection Range         | 0.16-10ng/mL                                                                                                                                                             |
| Sensitivity             | 0.1ng/mL                                                                                                                                                                 |
| Intra-assay Precision   | Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level Rat Bcl-2 were tested 20 times on one plate, respectively.               |
| Inter-assay Precision   | Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level Rat Bcl-2 were tested on 3 different plates, 20 replicates in each plate. |
| Preparation and Storage | Store at 4 degree C.                                                                                                                                                     |

| Related Product Information for BCL-2 elisa kit | <p>Intended Uses: This ELISA kit applies to the in vitro quantitative determination of Rat Bcl-2 concentrations in serum, plasma and other biological fluids.</p> <p>Principle of the Assay: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat Bcl-2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat Bcl-2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat Bcl-2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The OD value is proportional to the concentration of Rat Bcl-2. You can calculate the concentration of Rat Bcl-2 in the samples by comparing the OD of the samples to the standard curve.</p> |
