

General HVA ELISA Kit | HVA elisa kit

HVA (homovanillic acid) ELISA kit

CATALOG #
AAA165969

REACTIVITY
General

PRODUCT SYNONYMS

HVA; HVA (homovanillic acid) ELISA kit; HVA elisa kit

PRODUCT SPECIFICATIONS

Reactivity	General
Specificity	This kit recognizes HVA in samples. No significant cross-reactivity or interference between HVA and analogues was observed.
Sequence Length	435
Assay Type	Quantitative Competitive
Samples	Serum, plasma and other biological fluids
Detection Range	3.13-200ng/mL
Sensitivity	1.88ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, mid range and high level HVA were tested 20 times on one plate, respectively.
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, mid range and high level HVA were tested on 3 different plates, 20 replicates in each plate.
Preparation and Storage	Store at 4 degree C.

ADDITIONAL INFORMATION

Related Product Information for HVA elisa kit

Principle of the Assay: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with HVA. During the reaction, HVA in the sample or standard competes with a fixed amount of HVA on the solid phase supporter for sites on the Biotinylated Detection Ab specific to HVA. Excess conjugate and unbound sample or standard are washed from the plate, and Avidin conjugated to Horseradish Peroxidase (HRP) are added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color change is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The concentration of HVA in the samples is then determined by comparing the OD of the samples to the standard curve.

Intended Uses: This ELISA kit applies to the in vitro quantitative determination of HVA concentrations in serum, plasma and other biological fluids.

NCBI AND UNIPROT INFORMATION

NCBI GI #	148613828
Molecular Weight	50,409 Da
NCBI Official Full Name	HVA calcium channel, partial
UniProt Protein Name	HVA calcium channel

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
