

Rabbit PTPRM Polyclonal Antibody | anti-PTPRM antibody

PTPRM Polyclonal Antibody

CATALOG # AAA168562	HOST Rabbit	REACTIVITY Human, Mouse, Rat	APPLICATIONS Immunohistochemistry, ELISA
-------------------------------	-----------------------	--	--

PRODUCT SYNONYMS

PTPRM; Polyclonal Antibody; PTPRM Polyclonal Antibody; RPTPM; RPTPU; PTPRL1; hR-PTPu; R-PTP-MU; anti-PTPRM antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	Antigen affinity purification
Concentration	1.3mg/mL (varies by lot)
Sequence Length	1465
Applicable Applications for anti-PTPRM antibody	IHC (Immunohistochemistry), ELISA
Immunogen	Synthetic peptide of human PTPRM
Buffer	PBS with 0.05% sodium azide, 50% glycerol, pH7.3
Preparation and Storage	Store at -20 degree C (regular) and -80 degree C (long term). Avoid freeze / thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded Human lung cancer tissue using PTPRM Polyclonal Antibody at dilution 1:40

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded Human breast cancer tissue using PTPRM Polyclonal Antibody at dilution 1:40

ADDITIONAL INFORMATION

Related Product Information for anti-PTPRM antibody	The protein encoded by this gene is a member of the protein tyrosine phosphatase (PTP) family. PTPs are known to be signaling molecules that regulate a variety of cellular processes including cell growth, differentiation, mitotic cycle, and oncogenic transformation. This PTP possesses an extracellular region, a single transmembrane region, and two tandem catalytic domains, and thus represents a receptor-type PTP. The extracellular region contains a meprin-A5 antigen-PTP mu (MAM) domain, an Ig-like domain and four fibronectin type III-like repeats. This PTP has been shown to mediate cell-cell aggregation through the interaction with another molecule of this PTP on an adjacent cell. This PTP can interact with scaffolding protein RACK1/GNB2L1, which may be necessary for the downstream signaling in response to cell-cell adhesion. Alternative splicing results in multiple transcripts encoding distinct isoforms.

NCBI AND UNIPROT INFORMATION

NCBI GI #	156230467
NCBI GeneID	5797
Molecular Weight	165,060 Da
NCBI Official Full Name	PTPRM protein
NCBI Official Synonym Full Names	protein tyrosine phosphatase, receptor type, M
NCBI Official Symbol	PTPRM
NCBI Official Synonym Symbols	RPTPM; RPTPU; PTPRL1; hR-PTPu; R-PTP-MU
NCBI Protein Information	receptor-type tyrosine-protein phosphatase mu; protein tyrosine phosphatase mu; protein tyrosine phosphatase, receptor type, mu polypeptide; protein-tyrosine phosphatase mu
UniProt Protein Name	Receptor-type tyrosine-protein phosphatase mu
UniProt Gene Name	PTPRM
UniProt Synonym Gene Names	PTPRL1; Protein-tyrosine phosphatase mu; R-PTP-mu
UniProt Entry Name	PTPRM_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
