### PRODUCT SYNONYMS

SPARCL1; Polyclonal Antibody; SPARCL1 Polyclonal Antibody; AARSD1; Alanyl-tRNA editing protein Aarsd1; AlanylRNA synthetase domain-containing protein 1; anti-SPARCL1 antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                  |
|---------------------------------------------------|--------------------------------------------------|
| Host                                              | Rabbit                                           |
| Reactivity                                        | Human, Mouse, Rat                                |
| Clonality                                         | Polyclonal                                       |
| Isotype                                           | IgG                                              |
| Purity/Purification                               | Affinity purification                            |
| Sequence Length                                   | 539                                              |
| Applicable Applications for anti-SPARCL1 antibody | IHC (Immunohistochemistry), ELISA                |
| Immunogen                                         | Synthetic peptide of human SPARCL1               |
| Buffer                                            | PBS with 0.05% sodium azide, 50% glycerol, pH7.4 |
| Preparation and Storage                           | Store at -20°C. Avoid freeze/ thaw cycles.       |

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded Human breast cancer tissue using SPARCL1 Polyclonal Antibody at dilution 1:30

IHC (Immunohistochemistry)

Immunohistochemistry of paraffin-embedded Human liver cancer tissue using SPARCL1 Polyclonal Antibody at dilution 1:30

### ADDITIONAL INFORMATION

|                                                       |                                                                                                                                                                                                                                                                                                                                 |
|-------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-SPARCL1 antibody | SPARCL1 also known as high endothelial venule protein (Hevin) or MAST9, is a 664 amino acid member of the SPARC family of proteins. Highly expressed in lymph node, heart, lung, brain, skeletal muscle, ovary, colon and small intestine, SPARCL1 is a secreted protein that contains one EF-hand domain, one follistatin-like |
