

Rat CHGA (Chromogranin A) CLIA Kit | CHGA clia kit

Rat CHGA (Chromogranin A) CLIA Kit

CATALOG #
AAA171034

REACTIVITY
Rat

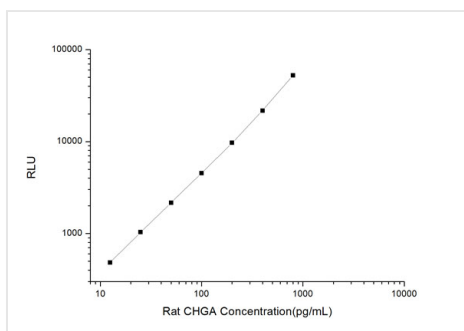

PRODUCT SYNONYMS

CHGA (Chromogranin A); Rat CHGA (Chromogranin A) CLIA Kit; CHGA clia kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Specificity	This kit recognizes natural and recombinant CHGA. No significant cross-reactivity or interference between CHGA and analogues was observed.
Sequence Length	457
Assay Type	Sandwich
Detection Range	12.5-800pg/mL
Sensitivity	Min: 7.5pg/mL; Max: 800pg/mL

ADDITIONAL INFORMATION

Related Product Information for CHGA clia kit

Intended Uses: This CLIA kit applies to the in vitro quantitative determination of CHGA concentrations in serum, plasma and other biological fluids.

Principle of the Assay: This kit uses Sandwich-CLIA as the method. The micro CLIA plate provided in this kit has been pre-coated with an antibody specific to CHGA. Standards or samples are added to the appropriate micro CLIA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for CHGA and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain CHGA, biotinylated detection antibody and Avidin-HRP conjugate will appear fluorescence. The Relative light unit (RLU) value is measured spectrophotometrically by the Chemiluminescence immunoassay analyzer. The RLU value is positively associated with the concentration of CHGA. You can calculate the concentration of CHGA in the samples by comparing the RLU value of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	180527
Molecular Weight	50,688 Da
NCBI Official Full Name	chromogranin A
UniProt Protein Name	Chromogranin-A
UniProt Gene Name	CHGA
UniProt Synonym Gene Names	CgA; SP-I
UniProt Entry Name	CMGA_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
