

Rat IgG (Immunoglobulin G) CLIA Kit | IgG clia kit

Rat IgG (Immunoglobulin G) CLIA Kit

CATALOG #
AAA171116

REACTIVITY
Rat

PRODUCT SYNONYMS

IgG (Immunoglobulin G); Rat IgG (Immunoglobulin G) CLIA Kit; IgG clia kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Specificity	This kit recognizes natural and recombinant IgG. No significant cross-reactivity or interference between IgG and analogues was observed.
Sequence Length	464
Assay Type	Sandwich
Detection Range	0.781-50ng/mL
Sensitivity	Min: 0.469ng/mL; Max: 50ng/mL

ADDITIONAL INFORMATION

Related Product Information for IgG clia kit

Intended Uses: This CLIA kit applies to the in vitro quantitative determination of IgG concentrations in serum, plasma and other biological fluids.

Principle of the Assay: This kit uses Sandwich-CLIA as the method. The micro CLIA plate provided in this kit has been pre-coated with an antibody specific to IgG. Standards or samples are added to the appropriate micro CLIA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for IgG and Avidin-Horseradish Peroxidase (HRP) conjugate is added to each micro plate well successively and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain IgG, biotinylated detection antibody and Avidin-HRP conjugate will appear fluorescence. The Relative light unit (RLU) value is measured spectrophotometrically by the Chemiluminescence immunoassay analyzer. The RLU value is positively associated with the concentration of IgG. You can calculate the concentration of IgG in the samples by comparing the RLU value of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	21538829
NCBI Official Full Name	immunoglobulin G

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
