

Rabbit LGMN Polyclonal Antibody | anti-LGMN antibody

LGMN Polyclonal Antibody

CATALOG # AAA177098	HOST Rabbit	REACTIVITY Human, Mouse, Rat	APPLICATIONS Immunofluorescence
-------------------------------	-----------------------	--	---

PRODUCT SYNONYMS

LGMN; Polyclonal Antibody; LGMN Polyclonal Antibody; AEP; LGMN1; PRSC1; legumain; anti-LGMN antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Isotype	IgG
Purity/Purification	Affinity purification
Form/Format	PBS with 0.02% sodium azide, 50% glycerol, pH7.3
Concentration	1mg/mL (varies by lot)
Applicable Applications for anti-LGMN antibody	IF (Immunofluorescence)
Immunogen	Recombinant fusion protein of human LGMN (NP_0010085301)
Conjugation	Unconjugated
Preparation and Storage	Store at -20 degree C. Avoid freeze/thaw cycles.

IMAGES

IF (Immunofluorescence)

Immunofluorescence analysis of L929 cells using LGMN Polyclonal Antibody at dilution of 1:100 (40x lens). Blue: DAPI for nuclear staining.

IF (Immunofluorescence)

Immunofluorescence analysis of HeLa cells using LGMN Polyclonal Antibody at dilution of 1:100 (40x lens). Blue: DAPI for nuclear staining.

IF (Immunofluorescence)

Immunofluorescence analysis of C6 cells using LGMN Polyclonal Antibody at dilution of 1:100 (40x lens). Blue: DAPI for nuclear staining.

ADDITIONAL INFORMATION

Related Product Information for anti-LGMN antibody	This gene encodes a cysteine protease that has a strict specificity for hydrolysis of asparaginyl bonds. This enzyme may be involved in the processing of bacterial peptides and endogenous proteins for MHC class II presentation in the lysosomal/endosomal systems. Enzyme activation is triggered by acidic pH and appears to be autocatalytic. Protein expression occurs after monocytes differentiate into dendritic cells. A fully mature, active enzyme is produced following lipopolysaccharide expression in mature dendritic cells. Overexpression of this gene may be associated with the majority of solid tumor types. This gene has a pseudogene on chromosome 13. Several alternatively spliced transcript variants have been described, but the biological validity of only two has been determined. These two variants encode the same isoform.
Product Categories/Family for anti-LGMN antibody	Polyclonal Antibody

NCBI AND UNIPROT INFORMATION

NCBI GI #	56682964
NCBI GeneID	5641
NCBI Accession #	NP_001008530.1
NCBI GenBank Nucleotide #	NM_001008530.2
UniProt Accession #	Q99538 ; O00123 ; Q86TV2 ; Q86TV3 ; Q9BTY1
Molecular Weight	42,008 Da
NCBI Official Full Name	legumain preproprotein
NCBI Official Synonym Full Names	legumain
NCBI Official Symbol	LGMN
NCBI Official Synonym Symbols	AEP; LGMN1; PRSC1
NCBI Protein Information	legumain
UniProt Protein Name	Legumain
UniProt Gene Name	LGMN
UniProt Synonym Gene Names	PRSC1
UniProt Entry Name	LGMN_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
