ADDITIONAL INFORMATION

Related Product Information for Normal Serum serum

This product is obtained from normal goat serum by protein A affinity chromatography and other column chromatography. This product is used as the control IgG, the non-specific binding of IgG itself with specific target protein or other specific biological molecules can be excluded.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
