

F-12 culture media

Ham's F-12

CATALOG #
AAA177757APPLICATIONS
Cell Culture

PRODUCT SYNONYMS

F-12; Ham's F-12; F-12 culture media

PRODUCT SPECIFICATIONS

Form/Format	Liquid; pH7.2-7.4
Concentration	1x (varies by lot)
Applicable Applications for F-12 culture media	Cell Culture
D-glucose	1802mg/L
HEPES	Negative
L-glutamine	1mM
NaHCO ₃	1176mg/L
Phenol Red	1.2mg/L
Preparation and Storage	Store at 2-8 degree C, Shading light.

ADDITIONAL INFORMATION

Related Product Information for F-12 culture media

The Ham's F-12K medium increases the concentration of amino acids and pyruvic acid on the basis of Ham's F-12, reduces the concentration of glucose, and modifies the composition and content of the salt. The Ham's F-12K medium was initially designed to culture primary human hepatocytes and differentiated cells of rats and chickens. The Ham's F-12K medium contains many kinds of amino acids, vitamins, inorganic salts and other ingredients for cell culture, but does not contain protein, lipids or any growth factors. Therefore, the product should be used with serum or serum-free additives.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
