

Freezing Medium Culture Media

Freezing Medium (Serum-free & animal origin-free)

CATALOG #
AAA177931

PRODUCT SYNONYMS

Freezing Medium; Freezing Medium (Serum-free & animal origin-free); Freezing Medium culture media

PRODUCT SPECIFICATIONS

Form/Format	Liquid
Concentration	1× (varies by lot)
Key Features	1. Ready-to-use serum-free freezing medium. 2. Suitable for long term storage of many mammalian cells. 3. Directly store the cells at -80°C without programmed cooling. 4. High cell viability after resuscitation.
Note	This product is sterilized by 0.22 um filtration. It is necessary to pay attention to the aseptic operation and avoid the pollution during the culture. For the freezing of stem cells (ES cells) and the cells that sensitive to DMSO, we recommend that the users perform a pre-experiment before use, freeze the cells with this product for at least one week, and then perform the formal cryopreservation after confirming the performance.
Preparation and Storage	Store at 2-8°C. If not used for a long time, please store at -20°C.

ADDITIONAL INFORMATION

Related Product Information for Freezing Medium culture media	Freezing Medium (Serum-free & Animal origin-free) is a chemically defined liquid cryopreservation medium intended for freezing and storing a variety of mammalian cell lines. This product is optimally formulated with DMSO, glucose and other nutrients, and without serum and animal origin component. The cells have high viability after resuscitation. Also it is suitable for the culture of serum-free cultured cells.
Product Categories/Family for Freezing Medium culture media	Others

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
