

Mouse Tetranectin ELISA Kit | Clec3b elisa kit

Mouse Tetranectin ELISA Kit

CATALOG #
AAA194315

REACTIVITY
Mouse

PRODUCT SYNONYMS

Tetranectin; Mouse Tetranectin ELISA Kit; TN; C-type lectin domain family 3 member B; Plasminogen kringle 4-binding protein; Clec3b; Tna; Clec3b elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Sequence Length	202
Samples	Serum, plasma, tissue homogenates, cell culture supernates or other biological fluids.
Preparation and Storage	For long term storage, please store the entire kit at -20 degree C.

ADDITIONAL INFORMATION

Related Product Information for Clec3b elisa kit

Intended Uses: This immunoassay kit allows for the in vitro quantitative determination of target antigen concentrations in serum, plasma, tissue homogenates, cell culture supernates or other biological fluids.

Principle of the Assay: The microtiter plate provided in this kit has been pre-coated with an antibody specific to target antigen. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody preparation specific for target antigen and then avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Then a TMB substrate solution is added to each well. Only those wells that contain target antigen, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The concentration of target antigen in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	1351219
UniProt Accession #	P43025
Molecular Weight	22,257 Da

NCBI Official Full Name	Tetranectin
UniProt Protein Name	Tetranectin
UniProt Gene Name	Clec3b
UniProt Synonym Gene Names	Tna; TN
UniProt Entry Name	TETN_MOUSE

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
