

## Mouse Protein prune homolog 2 ELISA Kit | Prune2 elisa kit

Mouse Protein prune homolog 2 ELISA Kit

CATALOG #  
**AAA194525**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Protein prune homolog 2; Mouse Protein prune homolog 2 ELISA Kit; BNIP2 motif-containing molecule at the C-terminal region 1; Prune2; Bmcc1; Kiaa0367; Prune2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                     |
|-------------------------|---------------------------------------------------------------------|
| Reactivity              | Mouse                                                               |
| Sequence Length         | 3084                                                                |
| Assay Type              | Sandwich                                                            |
| Detection Range         | 78-5000 pg/mL                                                       |
| Sensitivity             | 40.5 pg/mL                                                          |
| Intra-Assay CV          | <=8.2%                                                              |
| Inter-Assay CV          | <=10.1%                                                             |
| Recovery                | 89%                                                                 |
| Preparation and Storage | For long term storage, please store the entire kit at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                           |                                                |
|---------------------------|------------------------------------------------|
| NCBI GI #                 | 242332583                                      |
| NCBI GeneID               | 353211                                         |
| NCBI Accession #          | NP_851993.3                                    |
| NCBI GenBank Nucleotide # | NM_181348.4                                    |
| UniProt Accession #       | Q52KR3; Q501M3; Q6A079; Q8BW65; Q8BYM6; Q9D217 |
| Molecular Weight          | 334,701 Da                                     |

|                                  |                                                               |
|----------------------------------|---------------------------------------------------------------|
| NCBI Official Full Name          | protein prune homolog 2                                       |
| NCBI Official Synonym Full Names | prune homolog 2 (Drosophila)                                  |
| NCBI Official Symbol             | Prune2                                                        |
| NCBI Official Synonym Symbols    | Bmcc1; mKIAA0367; 6330414G02Rik; A230083H22Rik; A330102H22Rik |
| NCBI Protein Information         | protein prune homolog 2                                       |
| UniProt Protein Name             | Protein prune homolog 2                                       |
| UniProt Gene Name                | <b>Prune2</b>                                                 |
| UniProt Synonym Gene Names       | Bmcc1; Kiaa0367                                               |
| UniProt Entry Name               | PRUN2_MOUSE                                                   |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
