

## Rabbit FLJ14768 Polyclonal Antibody | anti-FIZ1 antibody

FLJ14768 antibody - C-terminal region

| CATALOG # | HOST   | REACTIVITY             | APPLICATIONS                       |
|-----------|--------|------------------------|------------------------------------|
| AAA197078 | Rabbit | Dog, Horse, Human, Pig | Western Blot, Immunohistochemistry |

### PRODUCT SYNONYMS

FLJ14768; Polyclonal Antibody; FLJ14768 antibody - C-terminal region; anti-FIZ1 antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                       |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                                                |
| Reactivity                                     | Dog, Horse, Human, Pig                                                                                                                                |
| Clonality                                      | Polyclonal                                                                                                                                            |
| Purity/Purification                            | Protein A purified                                                                                                                                    |
| Form/Format                                    | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                       | Synthetic peptide with the following region: HC GALYAALAAL EEHRRVSHGE GGGEEAAAAA REREPASGEP PSGSGRGK                                                  |
| Sequence Length                                | 496                                                                                                                                                   |
| Applicable Applications for anti-FIZ1 antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                         |
| Homology                                       | Dog: 86%; Horse: 79%; Human: 100%; Pig: 83%                                                                                                           |
| Immunogen                                      | The immunogen is a synthetic peptide directed towards the C terminal region of human FLJ14768                                                         |
| Preparation and Storage                        | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

### IMAGES

#### WB (Western Blot)

WB Suggested Anti-FLJ14768 Antibody Titration: 1.25ug/ml  
ELISA Titer: 1:62500  
Positive Control: Human Kidney

#### IHC (Immunohistochemistry)

Rabbit Anti-FLJ14768 Antibody  
Paraffin Embedded Tissue: Human Kidney  
Cellular Data: Epithelial cells of renal tubule  
Antibody Concentration: 4.0-8.0 ug/ml  
Magnification: 400X

ADDITIONAL INFORMATION

|                                                    |                                                                                                                                                                                                                                                                                                                                                  |

| Related Product Information for anti-FIZ1 antibody | <p>This is a rabbit polyclonal antibody against FLJ14768. It was validated on Western Blot and immunohistochemistry</p> <p>Target Description: FLJ14768 is homologous to mouse and bovine Fiz1 (flt-3 interacting zinc finger). It interacts with NRL (neural retina leucine zipper). Possible role for Fiz1 as a transcriptional repressor.</p> |
| Product Categories/Family for anti-FIZ1 antibody   | Polyclonal; Transcription Factor; Transcription Regulation; Immunohistochemistry; Transcription Factors                                                                                                                                                                                                                                          |
