

Rabbit FLJ11730 Polyclonal Antibody | anti-MEAF6 antibody

FLJ11730 antibody - N-terminal region

CATALOG # AAA197574	HOST Rabbit	REACTIVITY Cow, Human, Mouse, Rat, Zebrafish	APPLICATIONS Western Blot, Immunohistochemistry
-------------------------------	-----------------------	--	---

PRODUCT SYNONYMS

FLJ11730; Polyclonal Antibody; FLJ11730 antibody - N-terminal region; anti-MEAF6 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Cow, Human, Mouse, Rat, Zebrafish
Clonality	Polyclonal
Purity/Purification	Affinity Purified
Form/Format	Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.
Sequence	Synthetic peptide with the following region: HN KAAPPQIPDT RRELAELVKR KQELAETLAN LERQIYAFEG SYLEDTQM
Sequence Length	201
Applicable Applications for anti-MEAF6 antibody	WB (Western Blot), IHC (Immunohistochemistry)
Homology	Cow: 100%; Human: 100%; Mouse: 100%; Rat: 100%; Zebrafish: 92%
Immunogen	The immunogen is a synthetic peptide directed towards the N terminal region of human FLJ11730
Preparation and Storage	For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles.

IMAGES

WB (Western Blot)

WB Suggested Anti-FLJ11730 Antibody Titration: 0.2-1 ug/ml
ELISA Titer: 1:312500
Positive Control: Jurkat cell lysate
MEAF6 is supported by BioGPS gene expression data to be expressed in Jurkat

IHC (Immunohistochemistry)

Human kidney

ADDITIONAL INFORMATION

Related Product Information for anti-MEAF6 antibody	This is a rabbit polyclonal antibody against FLJ11730. It was validated on Western Blot and immunohistochemistry Target Description: The screening of cDNA expression libraries from human tumors with serum antibody (SEREX) has proven to be a powerful method for identifying the repertoire of tumor antigens recognized by the immune system of cancer patients, referred to as the cancer immunome. In this regard, cancer/testis (CT) antigens are of particular interest because of their immunogenicity and restricted expression patterns. Synovial sarcomas are striking with regard to CT antigen expression, however, highly expressed in sarcoma, CT antigens do not induce frequent humoral immune responses in sarcoma patients. Sera from two patients were used to immunoscreen cDNA libraries from two synovial sarcoma cell lines and normal testis, resulting in the identification of 113 distinct antigens. Sarcoma antigen NY-SAR-91 is one of them.
Product Categories/Family for anti-MEAF6 antibody	Polyclonal; Transcription Regulation; Disease Related; Immunohistochemistry; Acetylation; Transcription Factors

NCBI AND UNIPROT INFORMATION

NCBI GI #	40255020
NCBI GeneID	64769
NCBI Accession #	NP_073593
NCBI GenBank Nucleotide #	NM_022756
UniProt Accession #	Q86WE3; Q9HAF1
Molecular Weight	23kDa
NCBI Official Full Name	chromatin modification-related protein MEAF6 isoform 1
NCBI Official Synonym Full Names	MYST/Esa1 associated factor 6
NCBI Official Symbol	MEAF6
NCBI Official Synonym Symbols	EAF6; CENP-28; C1orf149; NY-SAR-91
NCBI Protein Information	chromatin modification-related protein MEAF6

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
