

## Rabbit KLHDC8A Polyclonal Antibody | anti-KLHDC8A antibody

KLHDC8A antibody - C-terminal region

| CATALOG # | HOST   | REACTIVITY                                             | APPLICATIONS                       |
|-----------|--------|--------------------------------------------------------|------------------------------------|
| AAA198783 | Rabbit | Cow, Dog, Guinea Pig, Horse, Human, Mouse, Rabbit, Rat | Western Blot, Immunohistochemistry |

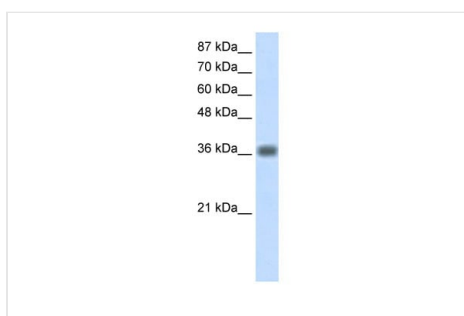

### PRODUCT SYNONYMS

KLHDC8A; Polyclonal Antibody; KLHDC8A antibody - C-terminal region; anti-KLHDC8A antibody

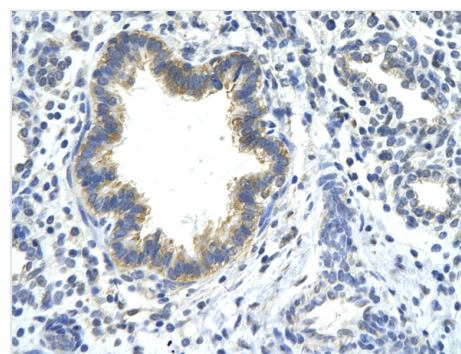

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                                       |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                                                                                |
| Reactivity                                        | Cow, Dog, Guinea Pig, Horse, Human, Mouse, Rabbit, Rat                                                                                                |
| Clonality                                         | Polyclonal                                                                                                                                            |
| Purity/Purification                               | Protein A purified                                                                                                                                    |
| Form/Format                                       | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                          | Synthetic peptide with the following region: PG KNKWEILPAM PTPRCACSSI VVKNCLLAVG GVNQGLSDAV EALCVSDS                                                  |
| Sequence Length                                   | 350                                                                                                                                                   |
| Applicable Applications for anti-KLHDC8A antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                         |
| Homology                                          | Cow: 100%; Dog: 93%; Guinea Pig: 100%; Horse: 93%; Human: 100%; Mouse: 93%; Rabbit: 100%; Rat: 100%                                                   |
| Immunogen                                         | The immunogen is a synthetic peptide directed towards the C terminal region of human KLHDC8A                                                          |
| Preparation and Storage                           | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |
