

## Rabbit RUNDC2A Polyclonal Antibody | anti-RUNDC2A antibody

RUNDC2A antibody - N-terminal region

| CATALOG # | HOST   | REACTIVITY                                            | APPLICATIONS                       |
|-----------|--------|-------------------------------------------------------|------------------------------------|
| AAA199825 | Rabbit | Cow, Dog, Horse, Human, Mouse, Rabbit, Rat, Zebrafish | Western Blot, Immunohistochemistry |

### PRODUCT SYNONYMS

RUNDC2A; Polyclonal Antibody; RUNDC2A antibody - N-terminal region; anti-RUNDC2A antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                                       |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                                                                                |
| Reactivity                                        | Cow, Dog, Horse, Human, Mouse, Rabbit, Rat, Zebrafish                                                                                                 |
| Clonality                                         | Polyclonal                                                                                                                                            |
| Purity/Purification                               | Protein A purified                                                                                                                                    |
| Form/Format                                       | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                          | Synthetic peptide with the following region: MS GSQNNDKRQF LLERLLDAVK QCQIRFGGRK EIASDSDSRV TCLCAQFE                                                  |
| Sequence Length                                   | 375                                                                                                                                                   |
| Applicable Applications for anti-RUNDC2A antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                         |
| Homology                                          | Cow: 100%; Dog: 100%; Horse: 100%; Human: 100%; Mouse: 100%; Rabbit: 100%; Rat: 100%; Zebrafish: 100%                                                 |
| Immunogen                                         | The immunogen is a synthetic peptide directed towards the N terminal region of human RUNDC2A                                                          |
| Preparation and Storage                           | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

Human Intestine

### ADDITIONAL INFORMATION

#### Related Product Information for anti-RUNDC2A antibody

This is a rabbit polyclonal antibody against RUNDC2A. It was validated on Western Blot and immunohistochemistry

Target Description: The function remains unknown.

|                                                     |                                                                                                                             |
