

## Rabbit CFLAR Polyclonal Antibody | anti-CFLAR antibody

CFLAR antibody - N-terminal region

| CATALOG # | HOST   | REACTIVITY                         | APPLICATIONS |
|-----------|--------|------------------------------------|--------------|
| AAA201651 | Rabbit | Cow, Dog, Horse, Human, Mouse, Rat | Western Blot |

### PRODUCT SYNONYMS

CFLAR; Polyclonal Antibody; CFLAR antibody - N-terminal region; anti-CFLAR antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                                       |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                                                                |
| Reactivity                                      | Cow, Dog, Horse, Human, Mouse, Rat                                                                                                                    |
| Clonality                                       | Polyclonal                                                                                                                                            |
| Purity/Purification                             | Protein A purified                                                                                                                                    |
| Form/Format                                     | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                        | Synthetic peptide with the following region: HQ VEEALDTDEK EMLLFLCRDV AIDVVPPNVR DLLDILRERG KLSVGDLA                                                  |
| Sequence Length                                 | 480                                                                                                                                                   |
| Applicable Applications for anti-CFLAR antibody | WB (Western Blot)                                                                                                                                     |
| Homology                                        | Cow: 100%; Dog: 86%; Horse: 93%; Human: 100%; Mouse: 80%; Rat: 80%                                                                                    |
| Immunogen                                       | The immunogen is a synthetic peptide directed towards the N terminal region of human CFLAR                                                            |
| Preparation and Storage                         | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

### IMAGES

#### WB (Western Blot)

WB Suggested Anti-CFLAR Antibody Titration: 1.25ug/ml  
Positive Control: HepG2 cell lysate  
CFLAR is strongly supported by BioGPS gene expression data to be expressed in Human HepG2 cells

#### WB (Western Blot)

Lanes: Lane 1: 10ug hFLIPL transfected 293 lysate  
Primary Antibody Dilution: 1:1000  
Secondary Antibody: Anti-rabbit HRP  
Secondary Antibody Dilution: 1:2000  
Gene Name: CFLAR  
Submitted by: Dr. Tencho Tenev, The Breakthrough Breast Cancer Research Centre, Institute of Cancer Research

**WB (Western Blot)**

Host: Rabbit Target Name: CFLAR Sample Tissue: Human HepG2 Antibody Dilution: 1.0ug/ml

**ADDITIONAL INFORMATION**

|                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Related Product Information for anti-CFLAR antibody</b> | <p>This is a rabbit polyclonal antibody against CFLAR. It was validated on Western Blot using a cell lysate as a positive control.</p> <p>Target Description: CFLAR might contribute to the carcinogenesis and aggressiveness of endometrial carcinoma and might be a useful prognostic factor in the tumor. CFLAR is specially overexpressed in colon cancers and it might contribute to carcinogenesis of normal colonic mucosa.</p> |
