

## Rabbit CDC25B Polyclonal Antibody | anti-CDC25B antibody

CDC25B antibody - N-terminal region

| CATALOG # | HOST   | REACTIVITY                          | APPLICATIONS                       |
|-----------|--------|-------------------------------------|------------------------------------|
| AAA201682 | Rabbit | Dog, Guinea Pig, Horse, Pig, Rabbit | Western Blot, Immunohistochemistry |

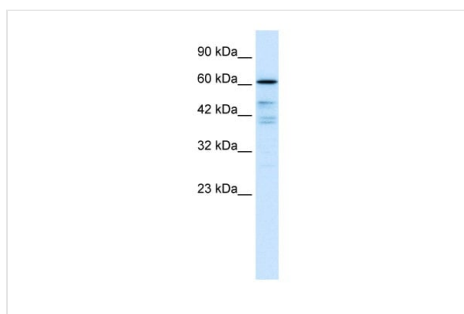

### PRODUCT SYNONYMS

CDC25B; Polyclonal Antibody; CDC25B antibody - N-terminal region; anti-CDC25B antibody

### PRODUCT SPECIFICATIONS

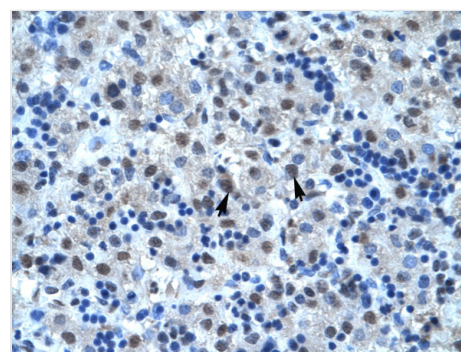

|                                                  |                                                                                                                                                       |
|--------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                                                |
| Reactivity                                       | Dog, Guinea Pig, Horse, Pig, Rabbit                                                                                                                   |
| Clonality                                        | Polyclonal                                                                                                                                            |
| Purity/Purification                              | Affinity Purified                                                                                                                                     |
| Form/Format                                      | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                     |
| Sequence                                         | Synthetic peptide with the following region: ME VPQPEPAPGS ALSPAGVCGG AQRPGHLPGL LLGSHGLLGS PVRAAASS                                                  |
| Sequence Length                                  | 580                                                                                                                                                   |
| Applicable Applications for anti-CDC25B antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                         |
| Homology                                         | Dog: 76%; Guinea Pig: 100%; Horse: 90%; Pig: 92%; Rabbit: 84%                                                                                         |
| Immunogen                                        | The immunogen is a synthetic peptide directed towards the N terminal region of human CDC25B                                                           |
| Preparation and Storage                          | For short term use, store at 2-8 degree C up to 1 week. For long term storage, store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

| Related Product Information for anti-CDC25B antibody | <p>This is a rabbit polyclonal antibody against CDC25B. It was validated on Western Blot and immunohistochemistry</p> <p>Target Description: CDC25B is a member of the CDC25 family of phosphatases. CDC25B activates the cyclin dependent kinase CDC2 by removing two phosphate groups and it is required for entry into mitosis. CDC25B shuttles between the nucleus and the cytoplasm due to nuclear localization and nuclear export signals. The protein is nuclear in the M and G1 phases of the cell cycle and moves to the cytoplasm during S and G2. CDC25B has oncogenic properties, although its role in tumor formation has not been determined.</p> |
| Product Categories/Family for anti-CDC25B antibody   | <p>Polyclonal; Cell Cycle Proteins; Chromatin &amp; Nuclear Signaling; Signal Transduction; Meiosis/Mitosis/Cell Cycle; Immunohistochemistry; Cell Cycle; MAPK Signaling; Phosphorylation</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
