

# Human Adaptor-Related Protein Complex 2, alpha 2 Subunit (AP2A2) ELISA Kit | AP2A2 elisa kit

Human Adaptor-Related Protein Complex 2, alpha 2 Subunit (AP2A2) ELISA Kit

|                               |                            |
|-------------------------------|----------------------------|
| CATALOG #<br><b>AAA202014</b> | REACTIVITY<br><b>Human</b> |
|-------------------------------|----------------------------|

## PRODUCT SYNONYMS

Adaptor-Related Protein Complex 2; alpha 2 Subunit (AP2A2); Human Adaptor-Related Protein Complex 2; alpha 2 Subunit (AP2A2) ELISA Kit; AP2A2 elisa kit

## PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 939                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 3ng/ml-48ng/ml                                                    |
| Sensitivity     | 0.1 ng/ml                                                         |

| Related Product Information for AP2A2 elisa kit | Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of AP2A2 in the sample, This AP2A2 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus AP2A2 concentration. The concentration of AP2A2 in the samples is then determined by comparing the O.D. of the samples to the standard curve. |

| NCBI Official Full Name          | Adaptor-related protein complex 2, alpha 2 subunit |
| NCBI Official Synonym Full Names | adaptor related protein complex 2 subunit alpha 2  |
| NCBI Official Symbol             | AP2A2                                              |
| NCBI Official Synonym Symbols    | HIP9; HYPJ; ADTAB; HIP-9; CLAPA2                   |
| NCBI Protein Information         | AP-2 complex subunit alpha-2                       |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
