

## Human Malondialdehyde (MDA) ELISA Kit | MDA elisa kit

Human Malondialdehyde (MDA) ELISA Kit

CATALOG #  
**AAA202323**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Malondialdehyde (MDA); Human Malondialdehyde (MDA) ELISA Kit; MDA elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 564                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 0.5 nmol/mL-8 nmol/mL                                             |
| Sensitivity     | 0.1 nmol/mL                                                       |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for MDA elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SUCCINYL-COENZYME A TRANSFERASE in the sample, This SUCCINYL-COENZYME A TRANSFERASE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SUCCINYL-COENZYME A TRANSFERASE concentration. The concentration of SUCCINYL-COENZYME A TRANSFERASE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                         |                                                    |
|-------------------------|----------------------------------------------------|
| NCBI GI #               | 1488170192                                         |
| NCBI Official Full Name | methyImalonyl-CoA mutase-domain-containing protein |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
