

Human Argininosuccinate Lyase (ASL) ELISA Kit | ASL elisa kit

Human Argininosuccinate Lyase (ASL) ELISA Kit

CATALOG #
AAA202709

REACTIVITY
Human

PRODUCT SYNONYMS

Argininosuccinate Lyase (ASL); Human Argininosuccinate Lyase (ASL) ELISA Kit; ASL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	461
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	10 U/L-160 U/L
Sensitivity	1 U/L

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for ASL elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ASL in the sample, This ASL ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ASL concentration. The concentration of ASL in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	31377525
NCBI GeneID	59085
NCBI Accession #	NP_067588.2

NCBI GenBank Nucleotide #	NP_067588.2
UniProt Accession #	P20673
NCBI Official Full Name	argininosuccinate lyase
NCBI Official Synonym Full Names	argininosuccinate lyase
NCBI Official Symbol	Asl
NCBI Protein Information	argininosuccinate lyase
UniProt Protein Name	Argininosuccinate lyase
UniProt Gene Name	Asl
UniProt Synonym Gene Names	ASAL
UniProt Entry Name	ARLY_RAT

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
