

Human Leuthine Enkephalin (LEK) ELISA Kit | LEK elisa kit

Human Leuthine Enkephalin (LEK) ELISA Kit

CATALOG #
AAA202874

REACTIVITY
Human

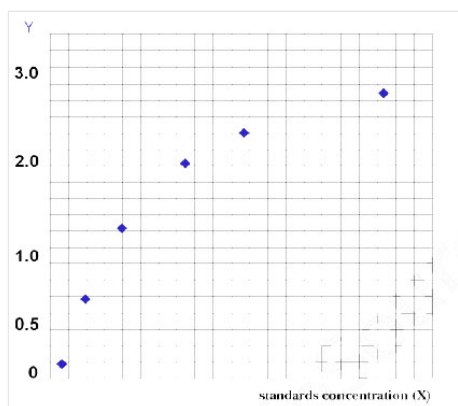

PRODUCT SYNONYMS

Leuthine Enkephalin (LEK); Human Leuthine Enkephalin (LEK) ELISA Kit; LEK elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sensitivity	0.1 pg/mL

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for LEK elisa kit

Intended Uses: This LEK ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of LEK in the sample, this LEK ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus LEK concentration. The concentration of LEK in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
