

## Human Hemoglobin (HB) ELISA Kit | HB elisa kit

Human Hemoglobin (HB) ELISA Kit

CATALOG #  
**AAA203382**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Hemoglobin (HB); Human Hemoglobin (HB) ELISA Kit; HB elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 117                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 20 g/L-320 g/L                                                    |
| Sensitivity     | 1 g/L                                                             |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for HB elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of Hb in the sample, This HbKit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus Hb concentration. The concentration of Hb in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                         |            |
|-------------------------|------------|
| NCBI GI #               | 13186284   |
| NCBI Official Full Name | hemoglobin |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
