

## Human Mycoplasma ELISA Kit

Human Mycoplasma ELISA Kit

CATALOG #  
**AAA204191**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Mycoplasma; Human Mycoplasma ELISA Kit; Mycoplasma elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                                                   |
|-----------------------|-------------------------------------------------------------------|
| Reactivity            | Human                                                             |
| Samples               | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type            | Competitive                                                       |
| Intra-assay Precision | Intra-assay CV are less than 15%.                                 |
| Inter-assay Precision | Inter-assay CV are less than 15%.                                 |

### ADDITIONAL INFORMATION

#### Related Product Information for Mycoplasma elisa kit

Intended Uses: This Mycoplasma ELISA kit is intended for Laboratory for Research use only and is not for use in test or therapeutic procedures. In order to determine whether contains Mycoplasma in the sample, this Mycoplasma ELISA Kit includes Negative control and Positive control. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. The color depth was positively correlated with the Mycoplasma in the sample.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
