

## Human S100P-Binding Protein (S100PBP) ELISA Kit | S100PBP elisa kit

Human S100P-Binding Protein (S100PBP) ELISA Kit

CATALOG #  
**AAA204221**

REACTIVITY  
**Human**

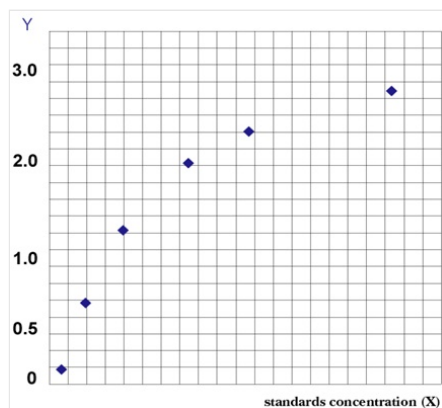

### PRODUCT SYNONYMS

S100P-Binding Protein (S100PBP); Human S100P-Binding Protein (S100PBP) ELISA Kit; S100PBP elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 277                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 187.5 pg/ml-3000 pg/ml                                            |
| Sensitivity     | 10 pg/ml                                                          |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for S100PBP elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of S100PBP in the sample, This S100PBP Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus S100PBP concentration. The concentration of S100PBP in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|                  |                |
