

## Human Collagen Type C (COLC) ELISA Kit | COLC elisa kit

Human Collagen Type C (COLC) ELISA Kit

CATALOG #  
**AAA204267**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Collagen Type C (COLC); Human Collagen Type C (COLC) ELISA Kit; COLC elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 3ng/ml-48ng/ml                                                    |
| Sensitivity     | 0.1 ng/ml                                                         |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for COLC elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of COLC in the sample, This COLCELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus COLC concentration. The concentration of COLC in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
