

Human Asparaginase (ASPG) ELISA Kit | ASPG elisa kit

Human Asparaginase (ASPG) ELISA Kit

CATALOG #
AAA204314

REACTIVITY
Human

PRODUCT SYNONYMS

Asparaginase (ASPG); Human Asparaginase (ASPG) ELISA Kit; ASPG elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	10 U/L-160 U/L
Sensitivity	1 U/L

ADDITIONAL INFORMATION

Related Product Information for ASPG elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ASPG in the sample, This ASPG ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ASPG concentration. The concentration of ASPG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	42524976
NCBI Official Full Name	asparaginase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
