

## Human Fc gamma RIla ELISA Kit | FCGR2A elisa kit

Human Fc gamma RIla ELISA Kit

CATALOG #  
**AAA204560**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Fc gamma RIla; Human Fc gamma RIla ELISA Kit; FCGR2A elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 315                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 4ng/ml-64ng/ml                                                    |
| Sensitivity     | 0.1 ng/ml                                                         |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for FCGR2A elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of FCgammaRIla in the sample, This FCgammaRIla ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus FCgammaRIla concentration. The concentration of FCgammaRIla in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|             |        |
|-------------|--------|
| NCBI GI #   | 579604 |
| NCBI GeneID | 2212   |

|                                  |                                                           |
|----------------------------------|-----------------------------------------------------------|
| NCBI Official Full Name          | FC gamma RIla                                             |
| NCBI Official Synonym Full Names | Fc fragment of IgG receptor IIa                           |
| NCBI Official Symbol             | FCGR2A                                                    |
| NCBI Official Synonym Symbols    | CD32; FCG2; FcGR; CD32A; CDw32; FCGR2; IGFR2; FCGR2A1     |
| NCBI Protein Information         | low affinity immunoglobulin gamma Fc region receptor II-a |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
