

Human Nitroreductase (NFSB) ELISA Kit | NFSB elisa kit

Human Nitroreductase (NFSB) ELISA Kit

CATALOG #
AAA204872

REACTIVITY
Human

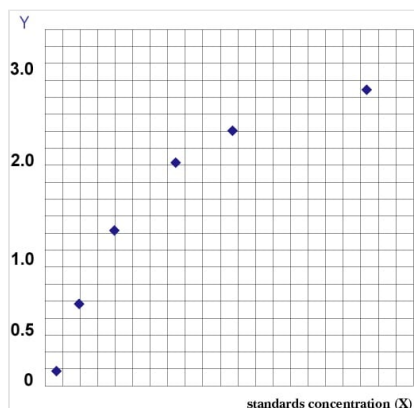

PRODUCT SYNONYMS

Nitroreductase (NFSB); Human Nitroreductase (NFSB) ELISA Kit; NFSB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	187
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	62.5 pg/ml-1000 pg/ml
Sensitivity	1 pg/ml

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for NFSB elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of NFSB in the sample, This NFSBELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus NFSB concentration. The concentration of NFSB in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	239910885
NCBI Official Full Name	Nitroreductase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
