

Human Urobilin ELISA Kit

Human Urobilin ELISA Kit

CATALOG #
AAA204911

REACTIVITY
Human

PRODUCT SYNONYMS

Urobilin; Human Urobilin ELISA Kit; Urobilin elisa kit

PRODUCT SPECIFICATIONS

Reactivity

Human

ADDITIONAL INFORMATION

Related Product Information for Urobilin elisa kit

Intended Uses: This UROBILIN ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of UROBILIN in the sample, this UROBILIN ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus UROBILIN concentration. The concentration of UROBILIN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
