

Human Oxidosqualene Cyclase (OSC) ELISA Kit | OSC elisa kit

Human Oxidosqualene Cyclase (OSC) ELISA Kit

CATALOG #
AAA204978

REACTIVITY
Human

PRODUCT SYNONYMS

Oxidosqualene Cyclase (OSC); Human Oxidosqualene Cyclase (OSC) ELISA Kit; OSC elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	733
Samples	Serum, plasma, cell culture supernate and other biological fluids
Assay Type	Sandwich
Detection Range	6.25 U/L-100 U/L
Sensitivity	0.1 U/L

ADDITIONAL INFORMATION

Related Product Information for OSC elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of OSC in the sample, This OSC ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus OSC concentration. The concentration of OSC in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	1098635
NCBI GeneID	81681
NCBI Official Full Name	oxidosqualene cyclase

NCBI Official Synonym Full Names	lanosterol synthase
NCBI Official Symbol	Lss
NCBI Protein Information	lanosterol synthase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
