

## Human Phosphokinase 1 ELISA Kit

Human Phosphokinase 1 ELISA Kit

CATALOG #  
**AAA205037**

REACTIVITY  
**Human**

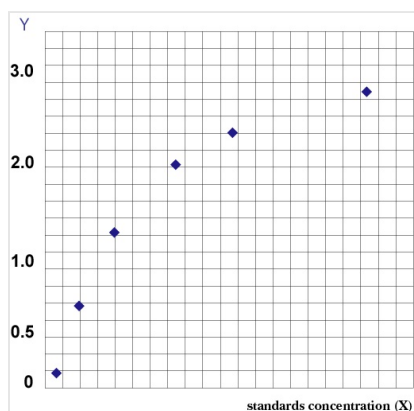

### PRODUCT SYNONYMS

Phosphokinase 1; Human Phosphokinase 1 ELISA Kit; Phosphokinase 1 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 112.5 pg/ml-1800 pg/ml                                            |
| Sensitivity     | 10 pg/ml                                                          |

### ADDITIONAL INFORMATION

#### Related Product Information for Phosphokinase 1 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of PHOSPHOKINASE 1 in the sample, This PHOSPHOKINASE 1 ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus PHOSPHOKINASE 1 concentration. The concentration of PHOSPHOKINASE 1 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
