

## Human Alpha-Synuclein ELISA Kit | SNCA elisa kit

Human Alpha-Synuclein ELISA Kit

CATALOG #  
**AAA205048**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Alpha-Synuclein; Human Alpha-Synuclein ELISA Kit; SNCA elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 140                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 250 pg/ml-4000 pg/ml                                              |
| Sensitivity     | 10 pg/ml                                                          |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for SNCA elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of alpha-SYNUCLEIN in the sample, This alpha-SYNUCLEIN ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus alpha-SYNUCLEIN concentration. The concentration of alpha-SYNUCLEIN in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|             |          |
|-------------|----------|
| NCBI GI #   | 49456267 |
| NCBI GeneID | 6622     |

|                                  |                         |
|----------------------------------|-------------------------|
| NCBI Official Full Name          | SNCA, partial           |
| NCBI Official Synonym Full Names | synuclein alpha         |
| NCBI Official Symbol             | SNCA                    |
| NCBI Official Synonym Symbols    | PD1; NACP; PARK1; PARK4 |
| NCBI Protein Information         | alpha-synuclein         |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
