

## Human Alpha-Enolase ELISA Kit | ENO1 elisa kit

Human Alpha-Enolase ELISA Kit

CATALOG #  
**AAA205447**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Alpha-Enolase; Human Alpha-Enolase ELISA Kit; ENO1 elisa kit

### PRODUCT SPECIFICATIONS

|                 |                                                                   |
|-----------------|-------------------------------------------------------------------|
| Reactivity      | Human                                                             |
| Sequence Length | 336                                                               |
| Samples         | Serum, plasma, cell culture supernate and other biological fluids |
| Assay Type      | Sandwich                                                          |
| Detection Range | 12.5 mU/mL-200 mU/mL                                              |
| Sensitivity     | 1 mU/mL                                                           |

Standard Curve (Sample)

### ADDITIONAL INFORMATION

#### Related Product Information for ENO1 elisa kit

Intended Use: The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of ALPHA-ENOLASE in the sample, This ALPHA-ENOLASE ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus ALPHA-ENOLASE concentration. The concentration of ALPHA-ENOLASE in the samples is then determined by comparing the O.D. of the samples to the standard curve.

### NCBI AND UNIPROT INFORMATION

|             |         |
|-------------|---------|
| NCBI GI #   | 2661039 |
| NCBI GeneID | 2023    |

|                                  |                                                 |
|----------------------------------|-------------------------------------------------|
| NCBI Official Full Name          | alpha enolase, partial                          |
| NCBI Official Synonym Full Names | enolase 1                                       |
| NCBI Official Symbol             | ENO1                                            |
| NCBI Official Synonym Symbols    | NNE; PPH; MPB1; ENO1L1; HEL-S-17                |
| NCBI Protein Information         | alpha-enolase; c-myc promoter-binding protein-1 |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
