

Human Secreted Alkaline Phosphatase ELISA Kit

Human Secreted Alkaline Phosphatase ELISA Kit

CATALOG #
AAA205704

REACTIVITY
Human

PRODUCT SYNONYMS

Secreted Alkaline Phosphatase; Human Secreted Alkaline Phosphatase ELISA Kit; Secreted Alkaline Phosphatase elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Sequence Length	625
Sensitivity	10 pg/mL

Standard Curve (Sample)

ADDITIONAL INFORMATION

Related Product Information for Secreted Alkaline Phosphatase elisa kit

Intended Uses: This SEAP ELISA kit is intended Laboratory for Research use only. The Stop Solution changes the color from blue to yellow and the intensity of the color is measured at 450 nm using a spectrophotometer. In order to measure the concentration of SEAP in the sample, this SEAP ELISA Kit includes a set of calibration standards. The calibration standards are assayed at the same time as the samples and allow the operator to produce a standard curve of Optical Density versus SEAP concentration. The concentration of DYKDDDDK -TAG in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	324970041
NCBI Official Full Name	secreted alkaline phosphatase

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
